# Профілі дослідників Web of Science

The screenshot shows the Web of Science interface for an author profile. At the top, there is a navigation bar with the Clarivate logo, language settings (English), and a Products menu. Below this is the 'Web of Science' header with a search bar and a user profile dropdown (Iryna Tykhonkova). The main content area displays the author's name 'Bondarenko, Igor N' with a verified status icon. Below the name, it shows '(Bondarenko, I.)', 'Highly cited' with a trophy icon, and the affiliation 'State Institution "Dnipropetrovsk Medical Academy of the Ministry of Health of Ukraine"'. The Web of Science ResearcherID 'GQP-1497-2022' is also visible. A 'Create Alert' button is located in the top right of the profile area. On the right side, there is a 'Verify your Author Record' section with instructions and a 'Go to author search' button. Below that is a 'Metrics' section with an 'Open dashboard' button and a question mark icon. At the bottom, there is a 'Published names' section with a list of variations of the author's name: 'Bondarenko, Igor', 'Bondarenko, I.', 'Bondarenko, I. N.', and 'Bondarenko, Igor N.'. A 'Show more' link is also present.

Продемонструйте публікації, показники цитування, рецензії та членство в редколегії в одному відкритому профілі, який легко підтримувати.

Отримайте видимість з меншими зусиллями, керуючи профілем, пропонуючи повну інтеграцію ORCID.

Заощаджуйте час на пошуку експертів у будь-якій галузі досліджень завдяки новим параметрам пошуку та фільтрам.

# Пошук за автором

Ідеальний сценарій

The screenshot displays the Web of Science search interface. At the top, the Clarivate logo is on the left, and 'English' and 'Products' are on the right. Below this, 'Web of Science™' and 'Search' are visible on the left, and the user's name 'Iryna Tykhonkova' is on the right. The main content area is divided into two tabs: 'DOCUMENTS' (highlighted in grey) and 'RESEARCHERS'. The 'RESEARCHERS' tab is active and contains two search input fields. The first field is labeled 'Name Search' and has a dropdown menu open showing 'Last Name' selected. Below this, a list of suggestions is shown: 'MALANCHUK', 'MALANCHUK', and 'MALANCHUK-RYBAK'. The second field is labeled 'First Name and Middle Initial(s)' and contains the letter 'o'. At the bottom right of the search area are 'Clear' and 'Search' buttons. A vertical sidebar on the left contains icons for menu, home, history, profile, and notifications. A help icon is in the bottom right corner.

### Times Cited and Publications Over Time

# Author Impact Beamplots

## How to read this beamplot

Each purple point on the beamplot represents an article. Its position shows its year of publication (y-axis) and its **citation percentile** (x-axis).  
Hover over a publication(s) to see the publication information.  
Articles published in the current year are not plotted in the beamplot.

● One publication    ■ Two publications    ■ Three or more publications

The annual median shows you the average citation percentile of all publications from the same year.

○ Annual percentile median

The grey dashed line shows the overall citation percentile median of all publications in the beamplot.

## PUBLICATIONS    AUTHOR IMPACT BEAMPLOT

Range: Recent 10 Years

● Citation percentile    ○ Annual citation percentile    - - - Overall citation percentile median

Citation counts are from Web of Science Core Collection; citation percentile data are from InCites.

Запропоновані Lutz Bornmann та Werner Marx 2014

# Ваша стаття vs інші статті за такою ж темою опубліковані в цьому ж році

# Ваші статті за певний рік

За всі крім останніх двох років

# Прочитати

## Percentiles

**Because citation distributions are strongly skewed, percentiles provide a good measure of central tendency.**

# 90%+

score means that a paper is among the 10% most cited in the field

When comparing citation counts, it is important to account for variation in how citations accumulate across different fields. Differences in the volume of papers published, the average number of references made (citation density) and the tendency to cite older or more recent work all affect the rate at which citations accrue. Hence, it is common for bibliometric indicators to account for these differences using normalization – the comparison of citation counts to a reference set (or benchmark) that is based on:

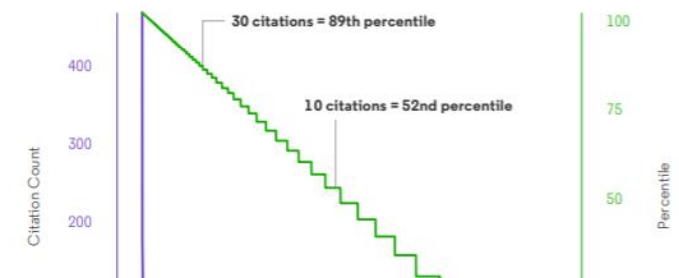

- Papers published in the same year

Using a reference set enables comparisons of citation counts across disciplines. However, the underlying skewness in the distribution of citations is also a problem. Many papers are never cited, most will only collect a few and a very small number will gather hundreds and perhaps thousands of them. This skew means traditional measurements, such as the mean or median, do not accurately convey the average (central tendency) because the data are not normally distributed.

A simple way to address this problem is to use percentiles instead of the raw citation counts. We illustrate this in Figure 2 where the distribution of citation counts is shown for organic

chemistry articles published in the Web of Science in 2015. In purple (left axis), the number of citations received is plotted from 462 on the left (the highest citation count), all the way to 0 on the right and shows the characteristic long-tail distribution. In green (right axis), the corresponding percentile is shown, starting on the left at 100 (for example, 100% of other articles in the distribution have a lower citation count) and dropping regularly down to zero. The figure highlights three points (30, 10 and 5 citations) to show percentile values. The steps that become more noticeable toward the right convey the discrete drops in citation count, with the final step denoting the articles that received just one citation.

**Figure 2: Citation counts (purple, left axis) for 19,264 articles published in organic chemistry in 2015 and their corresponding percentile values (crimson, right axis)**

# Coming soon!

The image shows a screenshot of a researcher profile page for David M Evans. The profile includes a circular avatar with the initials 'DE', a verified checkmark, and a green checkmark. It lists his affiliation as 'The University of Queensland' and his status as a 'Highly Cited Researcher'. A 'Web of Science ResearcherID' is also provided. Below the profile, there are sections for 'Published names' and 'Published Organizations'. A notification box is overlaid on the page, stating that the 'Authorship claims verification' feature launch is delayed. To the right, a 'Metrics' section displays various statistics, including total documents, publications indexed in Web of Science, and H-Index.

# Public Profile page:

З метою забезпечення довгострокової успішної роботи, профіль дослідника WoS Public сприятиме відображенню лише підтверджених авторів, доданих до профілю, що зробить підрахунок публікацій на платформі WoS узгодженим

The screenshot displays a public profile for Oxana Smirnova on the Web of Science (WoS) platform. The profile includes a circular profile picture, her name with a verified status, and her affiliation with Lund University. It also shows her Web of Science ResearcherID (A-4401-2013) and an ORCID iD. The profile is categorized under Physics, Astronomy & Astrophysics, Instruments & Instrumentation, Nuclear Science & Technology, and Computer Science. A 'Verify your Author Record' section prompts the user to enter their name for verification. The main content area shows a list of documents, with the first one being 'Performance of the reconstruction of large impact parameter tracks in the inner detector of ATLAS' published in 2023 in the European Physical Journal C, with 0 citations. The right sidebar provides a 'Metrics' overview, including a profile summary with 2113 total documents, 1964 indexed in WoS, and 1959 in the Core Collection. It also lists 3 preprints, 0 dissertations, 149 non-indexed publications, 3 verified peer reviews, and 0 verified editor records. Core Collection metrics show an H-index of 134, 1959 publications, 101,770 sum of times cited, and 39,574 citing articles.

### Загальна

**Вітаємо Вас на українській сторінці Clarivate!**

Clarivate є власником і виробником потужних ресурсів та інструментів, що допомагають науковцям проводити, аналізувати, презентувати наукові дослідження на світовому рівні.

На даній сторінці ви знайдете інформацію про основні продукти компанії і їхні можливості, оновлення ресурсів та розклад освітніх програм: вебінарів, семінарів та конференцій.

### WoS

Найвідомішим продуктом компанії є платформа наукової літератури Web of Science, на якій серед 15 баз є головна і перша в світі наукометрична база - Web of Science Core Collection (WoS CC) в якій представлено реферативну інформацію з понад 21800 журналів за усіма галузями знань. В WoS CC

### Найближчі вебінари

**Вебінари безкоштовні, українською, у WEBEX, зверніть увагу що WEBEX не підтримує операційну систему XP та нижче і застарілі версії браузера, оберіть відповідну техніку заздалегідь. Необхідна попередня реєстрація, оберіть зручний час, перейдіть за посиланням, натисніть на слово Register та заповніть анкету. Передбачено сертифікат учасника за умови присутності більше 90 % основного часу вебінару. До зустрічі.**

### ZOOM

Консультації по профілях установ у Web of Science 8 листопада о 13:00 реєстрація <https://forms.gle/CaHxMsKPw2owy7R79> (повтор від 31.10 та 1.11.2022)

Запитай про Web of Science 3 20 жовтня по 8 грудня кожного четверга о 12:15 20 хвилинна сесія в ZOOM де розбираємо усі питання які

# ZOOM серія «Запитай про Web of Science»

Учасники семінарів інколи повідомляють, що хотіли б поставити питання під час вебінару голосом, а не в чаті, але не має такої можливості у WEBEX коли кілька сотень учасників. Тому започатковуємо регулярну ZOOM серію «**Запитай про Web of Science**» що поки проходитиме щотижня по четвергах о 12:15, тривалість до 20 хвилин. Будь-який учасник може долучитися за постійним посиланням та поставити запитання голосом або в чаті. Щоразу будемо розглядати якісь практичні кейси та задачі.

**4 квітня 2024**

**Тема: Розширені можливості платформи Web of Science**

**Тези:** Як працювати з іншими базами на платформі та які дані можна отримати. Розширений пошук у Web of Science Core Collection. Скільки робіт із заданої тематики або в Nature та Science опублікували науковці певної організації або країни як це впливає на рейтинг ВНЗ; скільки статей опубліковано з права, педагогіки, філософії, лінгвістики, спорту тощо); у яких виданнях можна опублікувати роботу не англійською, які видання/роботи варто переглянути, як дізнатися про цитування у Web of Science Core Collection своїх документів, які опубліковані у виданнях, що не індексуються в базі

**Реєстрація**

**10:15–11:15**

**[https://us02web.zoom.us/webinar/register/WN\\_IPGvfAKXSYO94TdfGM6aYA](https://us02web.zoom.us/webinar/register/WN_IPGvfAKXSYO94TdfGM6aYA)**

**25 квітня 2024**

**Тема: Рішення Clarivate для розробки вашої рейтингової стратегії**

**Тези:** Рейтинги університетів – це популярний спосіб зрозуміти, яке місце займає той чи інший університет у ширшому академічному середовищі. Рейтинг є критично важливим чинником для студентів при виборі вищої освіти, і уряди, роботодавці та фінансові агентства більш прихильно ставляться до університетів з високим рейтингом.

Підвищення досконалості досліджень може допомогти університетам підвищити свій рейтинговий потенціал. Приєднуйтеся до сесії, щоб дізнатися більше про те, як рішення, дані та послуги Clarivate можна використовувати для підтримки стратегії рейтингу вашого університету.

# Підтримка України

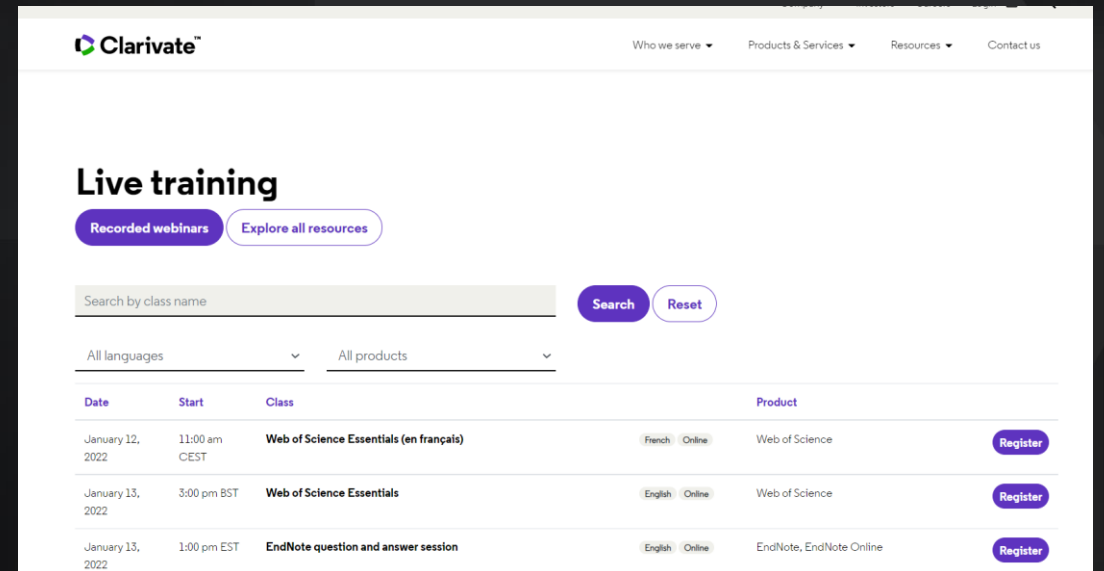

The screenshot shows the Clarivate website header with navigation links: Company, Investors, Careers, Login, and a search icon. Below the header, the Clarivate logo is on the left, and navigation links for 'Who we serve', 'Products & Services', 'Resources', and 'Contact us' are on the right. The main content area features a large image of a modern building facade with a grid of windows. The article title 'Clarivate to Cease all Commercial Activity in Russia' is prominently displayed. Below the title, the text reads: 'Clarivate respects and supports the rule of international law and joins the global community in condemning Russia's attack on Ukraine. Given the continued aggression against Ukraine by Russian forces, Clarivate has made the decision to close its office in Russia effective immediately and we will work to cease commercial activity in Russia in the coming weeks. Clarivate will work closely with our customers to manage the impact of our actions to their business and provide them more information as our process moves forward. Our focus also continues on supporting the well-being of our colleagues and contractors across the region. We are working continuously to understand their needs and are doing all we can to provide support during this incredibly difficult time. Clarivate continues to support calls for a cease-fire, the end to hostilities, the protection of civilians, and a negotiated settlement to peacefully resolve any differences and to avoid further needless devastation and loss of life for the Ukrainian people. This development follows our action to suspend all evaluation of new journal submissions from Russia and Belarus in the Web of Science a week ago.'
