

# ORCID in Ukraine: A look back at the last 3 years

*Ukraine Consortium Call, 18th September 2024*

**Overview of ORCID**

**ORCID in Ukraine**

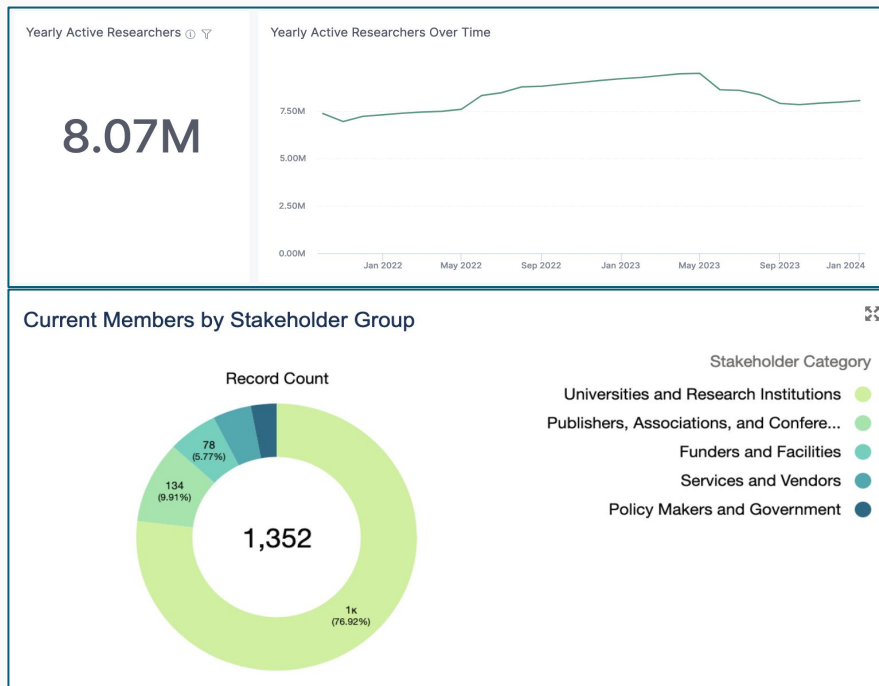

**Ukraine as part of the Community Trust  
Network**

**Q&A**

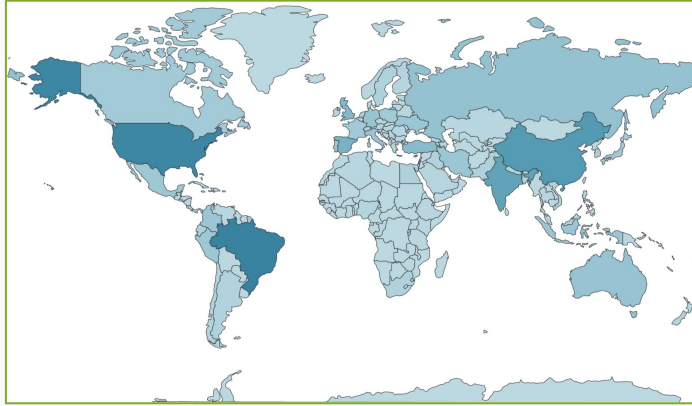

# A Few ORCID Facts

- Independent not-for-profit open to participation by all
- Registry launched in 2012
- Guided by our [values and founding principles](#)
- [Committed to making FAIR Open data available](#) via our [Public API](#) and [Annual Public Data File](#)

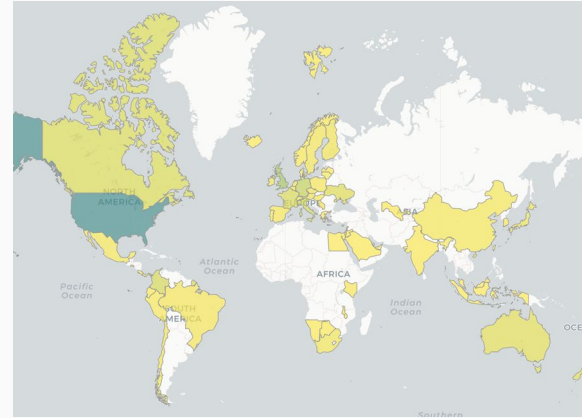

## ORCID Key Statistics

# We have broad adoption around the world

**Users in 249 countries**  
That's every country on the planet!

**Member organizations in 60 countries**  
28 national consortia and 1 regional consortium

Yearly Active Researchers

8.68 M

Active Integrated Systems

5,757

Organizational Members

1,405

# ORCID provides three infrastructure services

## The ORCID iD

A unique, persistent identifier free of charge to researchers (e.g. <https://orcid.org/0000-0002-1108-3660>)

## An ORCID record

A digital CV/profile connected to the ORCID iD, that can include employment, education, funding, peer review, research output and other metadata

## The ORCID APIs

A set of *Application Programming Interfaces* (APIs), as well as the services and support of communities of practice enabling interoperability between an ORCID record and member organizations

## Where we want to go

**ORCID's vision** is a world where **all who participate** in research, scholarship, and innovation are **uniquely identified** and **connected to their contributions** across **disciplines, borders, and time.**

## How we are going to get there

**ORCID's mission** is to **enable transparent and trustworthy connections** between **researchers, their contributions,** and their **affiliations** by providing a **unique, persistent identifier** for **individuals** to use as they engage in **research, scholarship, and innovation activities.**

# ORCID in Ukraine

- **A great evolution in the past 3 years**

# We welcomed the consortium in October 2022

## ORCID Welcomes Ukraine to Global Consortia

JANUARY 24, 2023 BY [PALOMA MARÍN-ARRAIZA](#)

Last fall, during Open Access Week, we formally announced the formation of our Ukraine consortium after two years of working together with the consortium lead, the State Scientific and Technical Library (SSTL) of Ukraine. With support from the Ministry of Education and Science of Ukraine, SSTL took the lead in a national ORCID consortium, initiating with 17 members, including the main national universities and scientific institutions.

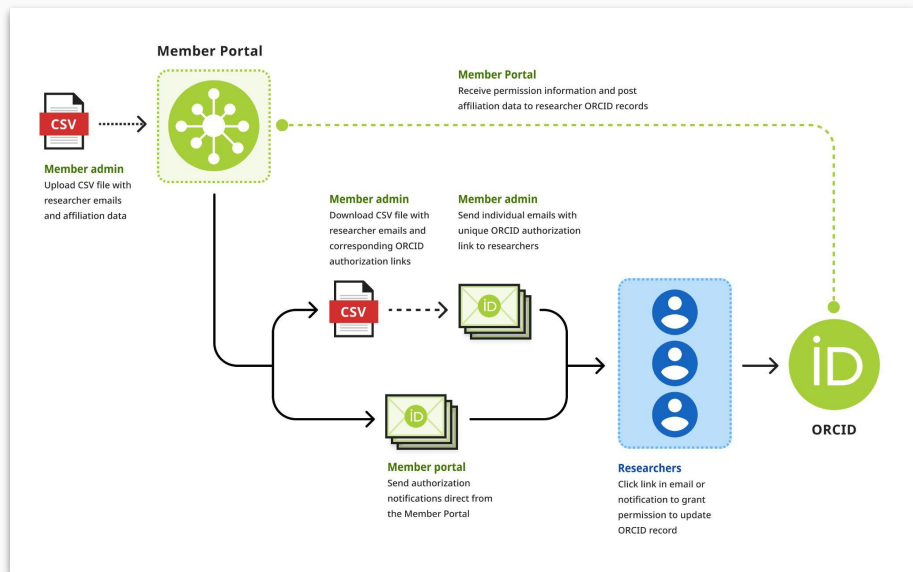

During the same time, the Ukrainian government also approved the Open Science Action Plan for the country, which was a critical step toward integration with the European Union research community. ORCID is pleased to have been able to provide a small measure of support to the Ukrainian research community during a time of immense hardship and uncertainty for the country.

### Goals:

- Supporting the Open Science Action Plan
- Improving Metadata quality on the national level
- Making national research domain more transparent
- Improving the system of reporting, and
- Using ORCID data as main source about researchers for the Ukrainian Current Research Information System

# The Affiliation Manager has been a great tool for the consortium

## Second consortium worldwide in usage!

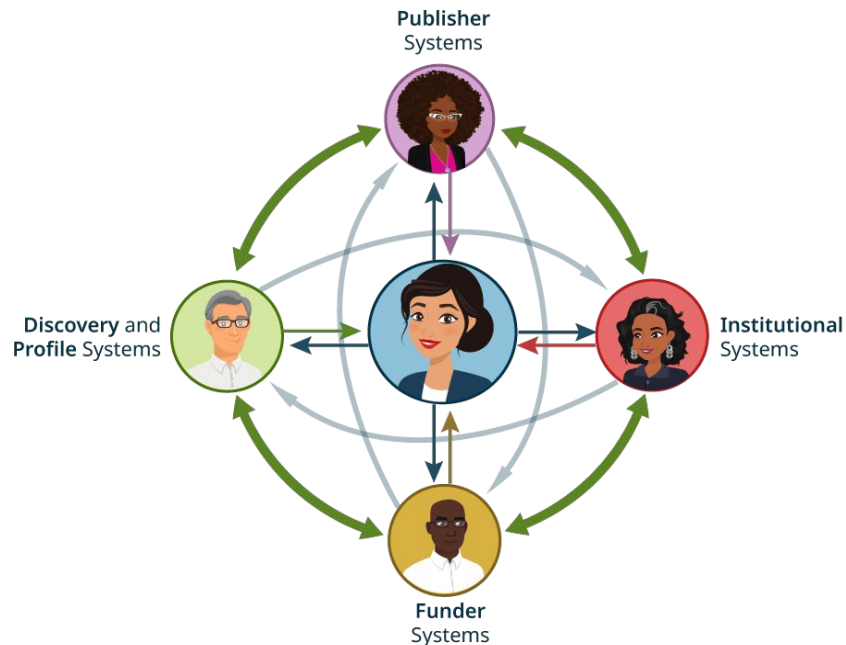

- 18 active Affiliation Manager integrations
- More than 5000 affiliations added

|   | Consortia Name                                    | Active Members | Affiliations |
|---|---|----------------|--------------|
| 1 | ORCID US Community                                | 40             | 10031        |
| 2 | State Scientific and Technical Library of Ukraine | 18             | 5169         |
| 3 | Jisc  | 4              | 3275         |

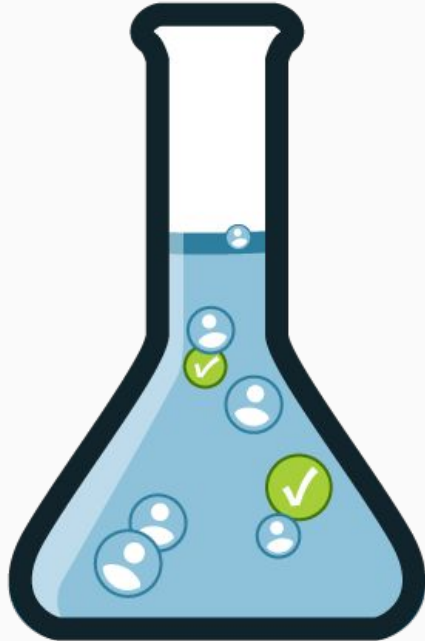

# Ukraine as part of the Community Trust Network

# Think of ORCID as a *hub* of research-related data that gets propagated throughout scholarly systems

The more **fully-populated ORCID records** and integrated systems there are, the more value that all stakeholders can gain from adopting ORCID.

# Propagating trust markers throughout the research ecosystem can have a positive effect on research integrity

**Taras Shevchenko National University of Kyiv:  
Kyiv, UA**

# More Trust Markers = More Trustworthiness

**WORKS**

- ✓ 3 Validated works
- 4 Self-asserted works

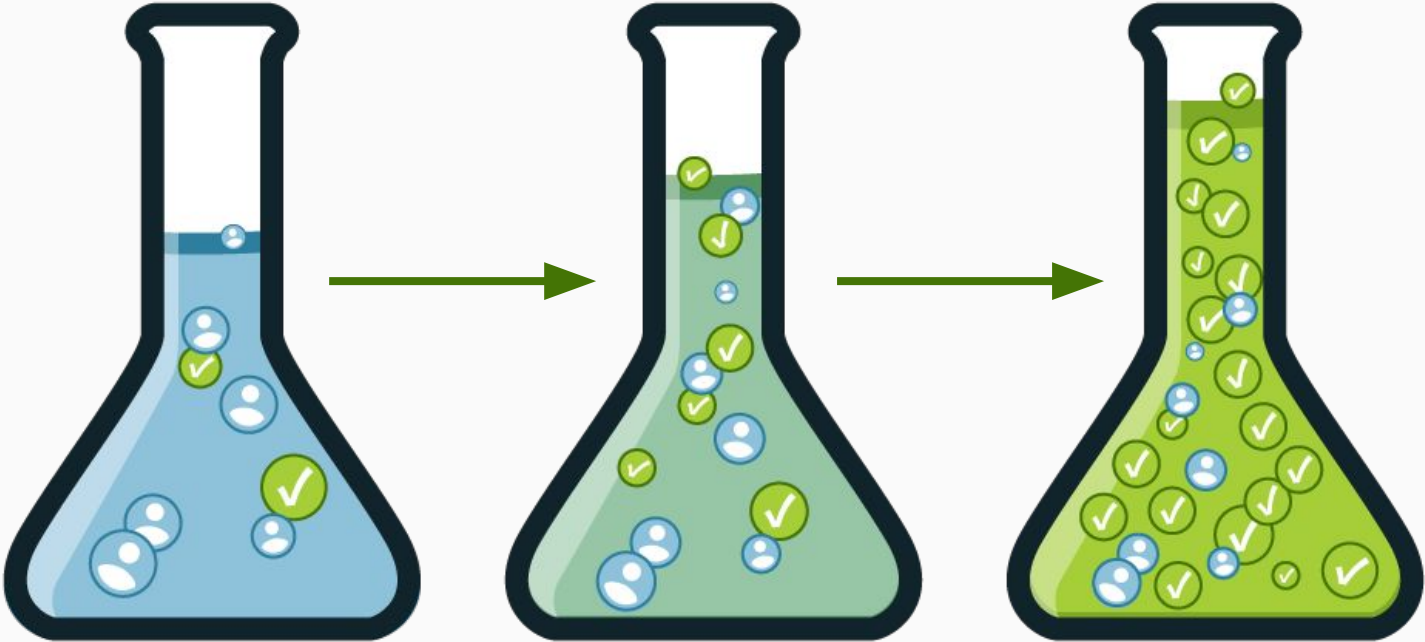

**PEER REVIEWS**

- ✓ 2 reviews for 2 publications/grants

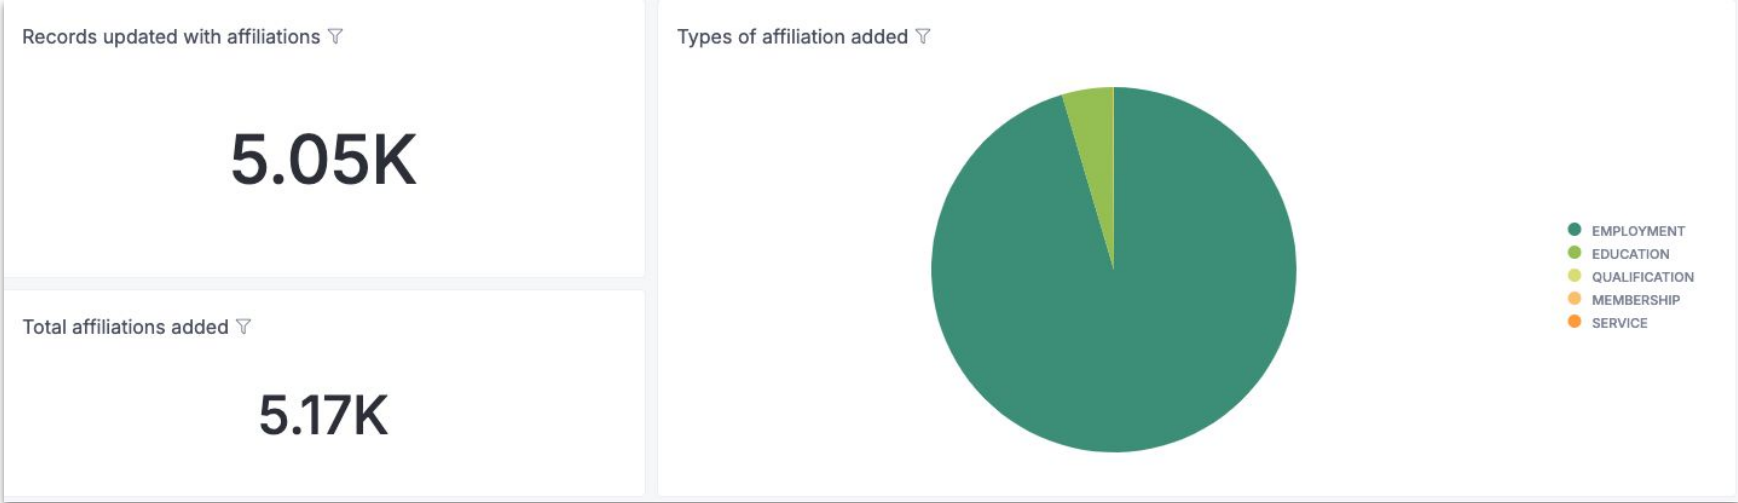

**FUNDING**

- 1 Self-asserted funding

**As more ORCID members add data (and trust markers) to records, the more robust the entire scholarly record becomes**

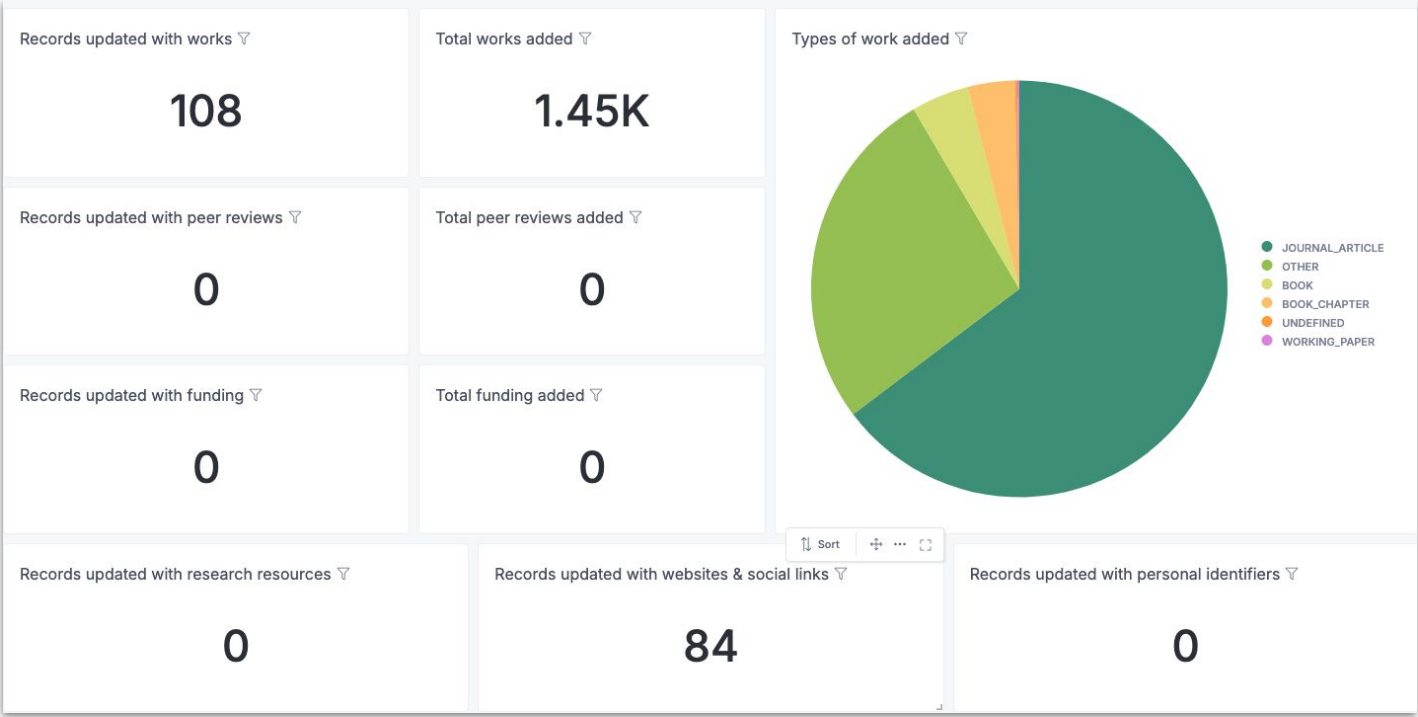

# The Ukrainian consortium has greatly contributed to the Trust Network

# The Ukrainian consortium has greatly contributed to the Trust Network

**Certainly more to come  
with the different DSpace  
and OJS integrations in the  
country**
